**Dory Fishing Equipment**

Hi! I'm Captain Cod. I live in the deep waters of the Atlantic Ocean. Wars have been fought over me. Everyone wants to catch me. But if I am very lucky and don't get caught I might grow to weigh as much as 200 pounds!

#### THE GLOUCESTER ADVENTURE

The Schooner Adventure was the highliner of the Gloucester fishing fleet. She carried dories out to the fishing grounds. The men fished from the dories by putting long lines with hundreds of hooks in the water. With two men in each of twelve dories, she caught more fish than any other boat. Once she caught 120,000 pounds of fish in 22 hours!
